SECURITY

With a slight movement, the handle fastened to the top tray will telescope the whole series of trays — folding them to less than half of their extended height. This gives 100 to 200% more storage space, depending on the number of trays, when they are filed away for safe-keeping, for the night, or any length of time. Example: The 4 tray open, extends 11 inches and folds to 4¾ inches. A space saving of well over 100%.

The add-O-mount FOLDING FILE TRAY brings in a NEW SYSTEM of handling papers since you have complete accessibility from desk to tray to desk drawer or vault. Folding units come in 2, 3, 4 and 5 trays. Made of high impact plastic STRONG — STURDY — LIGHT WEIGHT.

U. S. Patent No. 2,961,101

Trays telescoped can be placed, out of sight, in desk, file or drawer without removing important papers during any broken interval of processing.

IF A PAPER CHASE is the game you have to play, try clamping down on those important papers with UNIQUE desk trays that can be folded together, keeping papers securely tucked inside.

The add-O-mount FOLDING FILE TRAY brings in a NEW SYSTEM of handling papers since you have complete accessibility from desk to tray to desk drawer or vault. Folding units come in 2, 3, 4, and 5 trays. Made of high impact plastic STRONG—STURDY—LIGHT WEIGHT.

Gentlemen:

Enclosed find our check for \$11.90 as payment for the 3 tray legal size letter tray. It seems quite satisfactory and we believe will do the job for us. Would you send us 2 more just like it in beige color and thank you for your attention and cooperation.

Sincerely,

John D. Love

Gentlemen:

This office has recently purchased one of your 3-tray, legal size Add-O-Mount desk trays. We find it a distinct improvement over the old style trays which we have been using. The folding feature economizes on space, locks the materials in the trays when folded, and adds materially to the efficiency of our office.

Yours very truly,
Waldo Willhoft

Gentlemen:

I thought you would be interested in knowing that one of the clerks in our Loan Department has been using one of your folding trays for several weeks, and has expressed considerable satisfaction with it. She has been particularly pleased with the fact that she can, at the end of the day, fold down the file on the work which it contains, and deposit the whole thing in a desk drawer. At the beginning of the next day she can pick up the work where she left off without the necessity of re-sorting the various files.

Yours very truly,

Dear Mr. Hutton:

I have given the Hutton add-O-mount Tray a thorough test and am delighted with it.

It is remarkably light and easy to use and provides working space for a large number of legal files, organized into three groups. The nicest feature is the minimum of space required for storage in the safe or desk drawer, enabling me to clear the decks for the janitor to clean the office every night.

If you wish to send anyone in to my office to see the add-O-mount in operation, feel free to do so.

Yours very truly,
